

People Who Help Us Spring 2 February 2026

Fluffy is stuck up the tree...how can we help?

We are going to have lots of visitors!

During this topic we will be exploring the different people who help us in our community.

We will be finding out about how vets, doctors, firefighters, police officers, teachers and farmers help in our communities

We will be exploring numbers bonds to 10. Along with 2D and 3D shapes.

We will have a pet's week, the children can bring their pets into school, and tell us all about them.

Every day we will have phonics where we will learn new sound, key words and tricky words. We will be building our independent writing skills.

We will have visits from the vet, police, firefighters and a nurse. We will think of interesting questions to ask.

We will be finding out why Easter is special to Christians.

We will have challenges to see who can create sequences of movements. How many ways can we move our bodies?

Children will be encouraged to listen to each other and share their ideas.

The children will develop confidence using the apparatus

The children will interview different members of staff at school to find out how they help us.

We will be making Mother's Day Cards and Easter Cards.
